WashingBasket

BRAND IDENTITY & VISUAL DESIGN GUIDELINES

Collected. Cleaned. Returned.

Version 1.0 · 10 November 2026

DOCUMENT INFORMATION

About this edition

The official reference for how Washing Basket looks, sounds and behaves across its app, admin portal, website and everything printed or worn.

> **RULE** This book documents the identity that already exists in the product. Nothing in it replaces the approved logo or invents official colours.

Brand	Washing Basket
Document	Brand Identity & Visual Design Guidelines
Version	1.0 — first edition
Date	10 November 2026
Status	Approved elements documented; proposals awaiting sign-off
Owner	Washing Basket brand & product team
Audience	Designers, developers, marketing, content creators, agencies, new team members
Formats	Editable Word (.docx) and print PDF (A4 landscape) carrying the same content

Sources audited for this edition

SOURCE	WHAT IT CONTRIBUTED
assets/brand/WashingBasket-logo.png	Master logo (1254 × 1254 px), sampled colour values
website/src/logoGeometry.ts	Vector trace of the mark used to draw every logo in this book
mobile/src/theme/index.ts	Colour, type, radius, spacing and elevation tokens
admin/src/theme/tokens.ts · website/src/styles/base.css	Portal and website token mappings
mobile/src/components/logo/*	Wordmark, lockup proportions, logo animation timings
assets/artwork · assets/illustrations · assets/avatars	Illustration systems and characters
website/src/content.ts	Positioning, services, prices and real customer-facing copy
Running product (website, admin, mobile web)	Screenshots captured 10 Nov 2026

HOW TO USE THIS BOOK

Verified, proposed, and rules

Every page tells you how sure you can be. Some things are already in the product and approved. Some are recommendations to fill gaps the audit found.

VERIFIED

Verified

Exists in the codebase or approved assets today. Values were read from source files or sampled from the master artwork. Use as-is.

PROPOSED

Proposed

A recommendation that fills a gap: a missing logo version, a rule nobody wrote down, a print application. Needs sign-off before it becomes official.

RULE

Rule

Mandatory. Breaking a rule makes the work off-brand regardless of how good it looks. Rules are collected again in the Governance checklists.

FINDING "Finding" marks an inconsistency or gap discovered during the audit, such as two places in the code that disagree. Each finding carries a recommended resolution.

Who should read what

ROLE	START WITH
Designers	Logo (02), Colour (03), Typography (04), Illustration (05), Digital (08)
Developers	Colour tokens (03), Type scale (04), Digital design system (08), Motion (09), Appendix tokens
Marketing & content	Brand foundations (01), Applications (10), Voice (11)
Agencies & freelancers	Logo (02), Illustration rules (05), Governance checklists (12)

IDENTITY AUDIT

What the brand owns today

An inventory of every identity element found in the repository, where it lives, and its condition.

ELEMENT	LOCATION	CONDITION
Primary mark (basket, clothes, sparkles)	assets/brand/WashingBasket-logo.png · admin/public/logo.png	Verified · PNG only, no master vector file
Vector trace of the mark	website/src/logoGeometry.ts · mobile/src/components/logo/logoGeometry.ts	Verified · used by the product to draw and animate the logo
Wordmark "WashingBasket"	mobile/src/components/logo/Wordmark.tsx · admin brand.css	Verified · typeset live in the apps; outlined as artwork for this book
Horizontal lockup	CinematicLogoLockup.tsx · admin sidebar · website nav	Verified
Favicon	admin/public/favicon.png · website/public/favicon.png	Verified
Mobile app icon & splash	mobile/assets/icon.png, android-icon-*.png, splash-icon.png	Verified · built from the mark
Colour tokens	mobile/src/theme/index.ts (source of truth for all three products)	Verified
Fonts	Inter, Courier Prime in brand use; two retired display fonts still loaded in code (Google Fonts, OFL)	Verified · see finding 04
Process illustration plates (6)	assets/artwork/1–6.png · mobile/assets/scenes	Verified
Status vignettes (10)	assets/illustrations · mobile/assets/illustrations	Verified
Service illustrations (5)	mobile/assets/services	Verified
Customer avatars (3)	assets/avatars (Ananya, Rahul, Sneha)	Verified
Brand films & loops	hero-loop/, brand-film/, website/public/media	Verified · rendered from the plates
Icon set	mobile/src/components/ui/icons.tsx · admin Icon.tsx	Verified · 24 px outline, 2 px stroke
Photography	—	None exists · illustration carries imagery
Print & merchandise	—	None exists · proposals in section 10

IDENTITY AUDIT

Findings and how to resolve them

Places where the identity is incomplete or where two parts of the product disagree. None of these change the brand; they make it consistent.

01 No master vector logo

The only logo files are PNGs. The product draws the mark from a vector trace (logoGeometry.ts), which proves the shapes, but there is no signed-off SVG/PDF/EPS for print.

Resolve: Export the trace as the official SVG and EPS, check it against the PNG at 400%, and store it in assets/brand.

02 App icon replaced

mobile/assets/icon.png, the Android adaptive layers, the splash and the favicon were the Expo template. They are now built from the mark (logoGeometry.ts) on a white tile.

Resolve: Check the new icon on real iOS and Android home screens and in the store listing before submission.

03 White text on Action Orange

Primary buttons put white text on #FFA742. That pair measures 1.9:1, below the 4.5:1 WCAG AA minimum for text.

Resolve: Use Ink (#0A1C3E) labels on Action Orange (9.3:1), or keep white text only at 18 px bold and above as a stopgap.

04 Retired display fonts still in code

Website and admin headings load Plus Jakarta Sans, and theme/index.ts names Nunito Black. Brand typography is now Inter, with the wordmark as fixed artwork.

Resolve: Point --display and the admin heading styles at Inter, remove both fonts, and use the outlined wordmark artwork instead of live text.

05 Two primary-button colours

The token says CTAs are Action Orange, while the sign-in “Continue” and admin “Sign in” buttons are Ink.

Resolve: Adopt the rule: Orange for the one commercial action on a screen (Book, Pay, Top up); Ink for flow steps (Continue, Sign in).

06 Placeholder contact details

Support email care@washingbasket.example is a placeholder domain.

Resolve: Replace with the live address before any print or store material uses it.

01

Brand foundations

Overview and story

Purpose, vision and mission

Values and personality

Positioning and audience

Manifesto

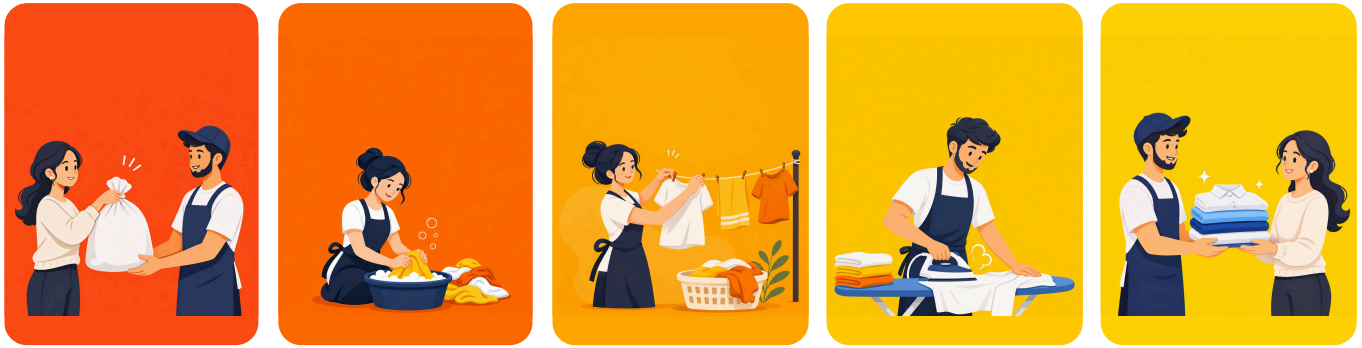

BRAND OVERVIEW

Clean clothes, without the laundry day.

Washing Basket collects laundry at your door or a campus counter, washes, dries and irons it with care, and brings it back. Booked and followed in one app.

VERIFIED Headline and description are the live website hero (website/src/content.ts).

Collect Wash Dry Iron Return

The five steps of every order, drawn as the brand's process plates (shown whole).

What it is

A digital laundry service with seven services, from **Only Wash at ₹45/kg** to dry cleaning, blankets, shoes and colour dye. Customers book, pay and track in a mobile app; staff run the counters with a QR scanner; operations run from an admin portal.

Where it works

Campus counters at **Lovely Professional University** and **NIT Jalandhar**, and doorstep pickup around **Model Town, Jalandhar**, in two-hour slots.

Origin

The brand was built for campus life, where laundry competes with lectures, labs and deadlines. Founding date, founders and early history are not recorded in the materials audited.

PROPOSED Add the founding story here once supplied. Do not invent one.

BRAND STORY

Campus life is full. Laundry should be simple.

> **Lectures. Labs. Deadlines. Plans. And somewhere in between, the laundry that should never have been yours to worry about.**

The story Washing Basket tells is not about washing machines. It is about **time and headspace**. A student with a stained shirt and a full week does not want a lesson in fabric care; they want the problem to disappear and come back folded.

So the service is built around three verbs, written on the website as a single brand moment: **Collected. Cleaned. Returned.** Everything else, from the app's live progress timeline to the QR handover at the counter, exists to make those three words dependable.

VERIFIED Story lines, the four-word rhythm and the three brand bands are live on the website (STORY and BRAND in content.ts).

PURPOSE · VISION · MISSION

Why we exist, where we are going

PURPOSE

Give people their time back.

Take laundry off the list of things a busy person has to think about, and return it cared for.

PROPOSED

VISION

Laundry as dependable as a utility.

Wherever students and families live, laundry day should be a tap in an app and a basket handed over, nothing more.

PROPOSED

MISSION

Collect, care, return. Every order.

Run a counted, tracked, five-step process with hygiene, fabric care and professional handling, and show every step in the app.

PROPOSED

PROPOSED No written purpose, vision or mission exists in the codebase. These statements are drafted from what the product demonstrably does and from the live “quality promise”: hygiene, fabric care and professional handling. Approve or edit before external use.

VALUES & PERSONALITY

Five values, one calm personality

01

Care

Every piece counted in front of you, handled by fabric, checked on return.

Evidence: Quality promise; QR item count

02

Clarity

Prices shown in full before you book. Every stage visible in the app.

Evidence: Price list; tracking timeline

03

Reliability

Two-hour pickup slots, stated turnarounds: 48 h, 72 h, 5 days.

Evidence: services.json; pickup slots

04

Ease

Book in a minute, hand over your basket, get on with your week.

Evidence: Website story copy

05

Honesty

No invented numbers, awards or testimonials, ever.

Evidence: Stated rule in content.ts

Personality framework

	WE ARE	WE ARE NOT
Feel	Warm, fresh, orderly. A folded stack of clean clothes.	Clinical, corporate, sterile.
Sound	Calm, short, concrete. Full stops, plain verbs.	Hype, exclamation marks, slang overload.
Behave	Helpful and transparent: show the price, show the step.	Pushy upsells, hidden fees, vague promises.
Look	Flat, friendly illustration; bright primaries on calm neutrals.	Stock photos, glossy gradients, neon.

VERIFIED Values are drawn from behaviour the product already shows; the evidence column cites where. The framework wording is new.

POSITIONING & AUDIENCE

For people with full weeks

Positioning statement

> **For students and busy households who would rather not spend a day on laundry, Washing Basket is the laundry service that collects, cleans and returns your clothes, booked and tracked in one calm app, with every piece counted and every price shown up front.**

Brand promise

Collected. Cleaned. Returned. Your basket comes back the way you handed it over, only clean, on the day we said.

What sets it apart

- Campus counters with QR handover, counted in front of you
- Live, step-by-step order tracking in the app
- Transparent per-kg and per-piece pricing before booking
- Wallet, referrals and live offer codes built in
- A warm illustrated world instead of generic laundry imagery

Audience

SEGMENT	NEED	WHERE THEY MEET US
Hostel students (LPU, NITJ)	Quick, affordable, no-fuss laundry between classes	Campus counter, app
Residents & families	Doorstep pickup that fits a schedule	Two-hour slots, Model Town
Occasion & specialty	Dry cleaning, blankets, shoes, colour dye	Service catalogue

Desired perception

Customers should describe Washing Basket as **“the one that just handles it.”** Dependable before delightful; friendly without being childish; modern without feeling like a tech company.

Emotional experience

Relief at hand-over, reassurance while tracking, and a small pleasure at return: the crisp, folded stack the logo itself depicts.

> PROPOSED Audience and positioning are derived from the product’s locations, services and copy; refine with customer research.

MANIFESTO

Your week is full.
Lectures. Labs. Deadlines. Plans.
Laundry was never meant to be one more thing.
So hand us the basket.
We will count every piece in front of you,
wash it the way you chose,
dry it right through, never rushed,
press it, fold it, pack it,
and bring it back when we said we would.
No fuss. No guesswork. No laundry day.

Collected. Cleaned. Returned.

PROPOSED Proposed manifesto. Built from live website lines (story, care steps and brand bands); approve before publishing.

02

Logo identity

- The mark and its anatomy
- Symbolism
- Construction and proportion
- Wordmark and lockups
- Clear space and minimum size
- Colour versions and backgrounds
- Misuse

PRIMARY LOGO

The mark

A laundry basket holding two folded cloths, a towel draped over its rim, and two sparkles above. Four shapes, three colours, one idea: clean laundry, ready to hand back.

VERIFIED Drawn here from the product's own vector trace of the master PNG (logoGeometry.ts). Colours: Logo Orange #FE8701, Cloth Red #D30D24, Basket Navy #013E86.

RULE Never redraw, re-trace or "improve" the mark. Use supplied artwork only.

SYMBOLISM

What the mark says

Basket	The hand-over. The product is named after it and the customer's first act is giving it to us. The grid of six openings reads as a sturdy, everyday object.
Folded cloths	The result. Stacked orange over red, each ending in a rounded fold with a tucked line, they show laundry already done: washed, pressed, folded.
Towel	A navy towel draped over the rim, separated by a white knockout so it reads as a soft object resting on a hard one.
Sparkles	Clean. Two four-point stars, large and small, the universal shorthand for freshness, set where your eye ends its journey up the stack.

Reading order. The mark reads bottom to top: basket, clothes, sparkle. It tells the service in one glance: collected, cared for, clean.

VERIFIED Part names (basket, basketRim, towel, clothOrange, clothRed, sparkleLarge, sparkleSmall) are the product's own layer names, used to animate the mark.

Basket **Towel** **Folded cloths** **Sparkles**

CONSTRUCTION

Geometry and proportion

Measured in logo units (u) from the product trace. The mark is almost square: 776 u wide × 787 u tall.

PART	W × H (U)	SHARE OF HEIGHT
Whole mark	776 × 787	100%
Basket incl. rim	776 × 364	46%
Rim bar	776 × 75	10%
Red cloth	509 × 139	18%
Orange cloth	448 × 149	19%
Sparkle large	169 × 179	23%
Sparkle small	113 × 122	16%

All terminals are round. The rim and cloths are capsule-ended bars; the basket body tapers inward toward a radius at the foot. There are no sharp corners outside the sparkle points.

VERIFIED Dimensions are bounding boxes from logoGeometry.ts. The 8 × 8 grid is a measuring aid, not a construction grid the mark was drawn on.

WORDMARK & LOCKUPS

Wordmark and lockups

VERIFIED Primary horizontal lockup

PROPOSED Stacked lockup

VERIFIED Mark only

VERIFIED Wordmark only

Wordmark specification

Form	Fixed artwork, outlined from the website setting (site.css .brand-title). Never retype it
Capitals	W and B at 1.25 em, Medium weight
Lowercase	0.72 em, SemiBold weight
Tracking	−0.04 em capitals, −0.02 em lowercase; W tucked −0.11 em
Colour	Ink #0A1C3E; white on dark
Spelling	Set solid: WashingBasket

Lockup proportions

Mark height	2.28 × wordmark size (cap height ≈ 0.41 × mark)
Gap	0.47 × wordmark size
Alignment	Capitals centred on the mark
Source	Website lockup; admin sidebar and app intro follow the same order

RULE In running text always write the name as two words, “Washing Basket”. The solid form belongs to the wordmark only.

When to use which

- Horizontal lockup: default for headers, nav bars, documents, signage.
- Mark only: app icon, favicon, avatars, loaders, small spaces where the name is already present.
- Wordmark only: rare; footers or legal lines where the mark appears elsewhere.
- Stacked: square formats such as social avatars and packaging fronts (proposed).

CLEAR SPACE & MINIMUM SIZE

Give it room to breathe

Clear space

Keep a margin of **x** on every side, where x is the height of the small sparkle (122 u, about 15% of the mark's height). Nothing — text, edges, other logos — enters this zone. For the horizontal lockup, measure x from the mark and apply it around the whole lockup.

Minimum size

VERSION	DIGITAL	PRINT
Mark only	24 px tall	8 mm tall
Horizontal lockup	28 px tall (mark)	10 mm tall (mark)
Favicon	16 px (simplified pixel version)	—

Below these sizes the knockout between towel and rim, and the tuck lines in the cloths, fill in. The product's smallest live use is the 38 px admin sidebar mark.

PROPOSED Clear space and minimum sizes are new rules derived from the mark's geometry and from the smallest sizes the product already uses successfully.

COLOUR VERSIONS

Colour versions

Full colour is the default. Single-colour versions exist for situations where full colour cannot reproduce.

VERIFIED Full colour on white

VERIFIED Full colour on light grey

PROPOSED Reversed on deep navy

PROPOSED Navy monochrome

PROPOSED Ink monochrome

PROPOSED White on navy

PROPOSED White on plate colour

PROPOSED Black (fax, stamps, engraving)

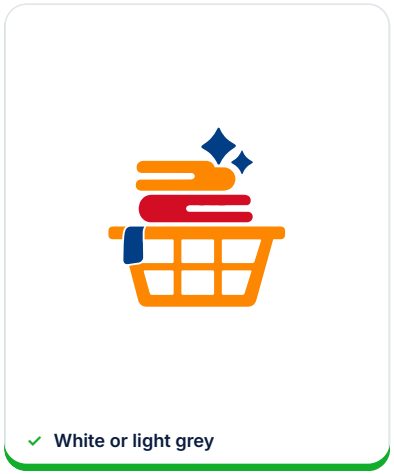

Reversed version. On deep navy the navy towel and sparkles would disappear, so they turn white while the orange and red stay. This is the only permitted colour swap.

Monochrome. The product already supports a one-colour mark (the tint option in LogoLayer.tsx). The towel knockout is drawn in the background colour, so the gap survives in every version.

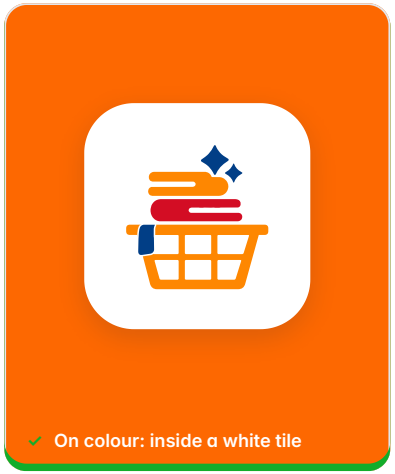

PROPOSED Only full colour exists as approved artwork. Reversed and monochrome versions follow the product's own tint logic; export and approve them as official files.

BACKGROUNDS & PLACEMENT

Backgrounds and placement

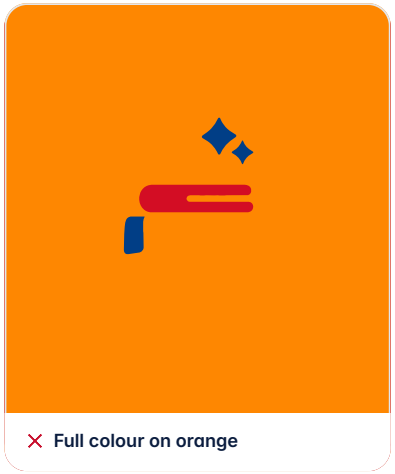

✓ White or light grey

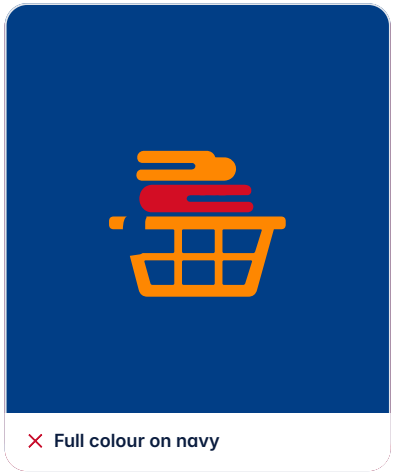

✓ On colour: inside a white tile

✓ Deep navy: reversed

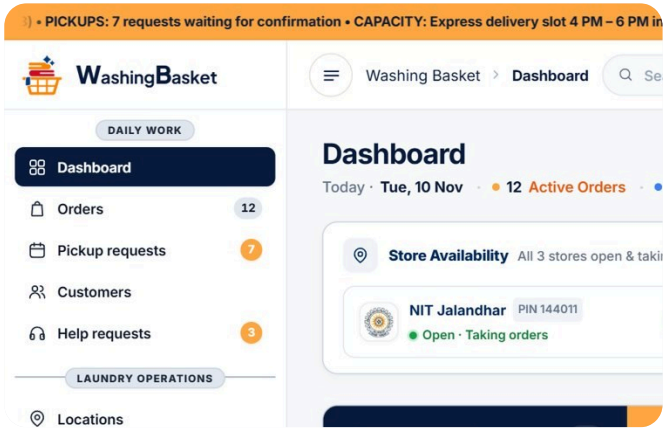

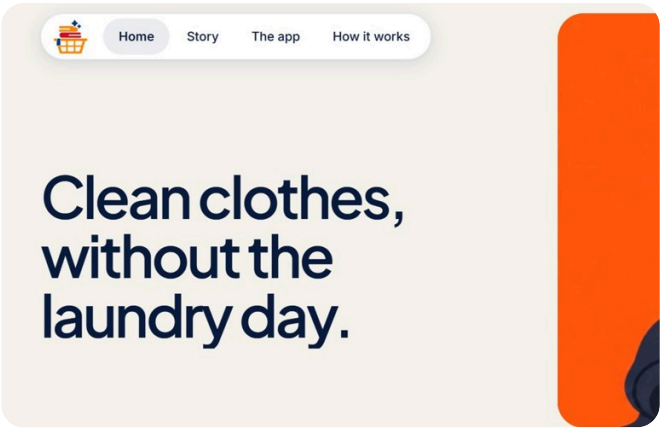

✗ Full colour on orange

✗ Full colour on navy

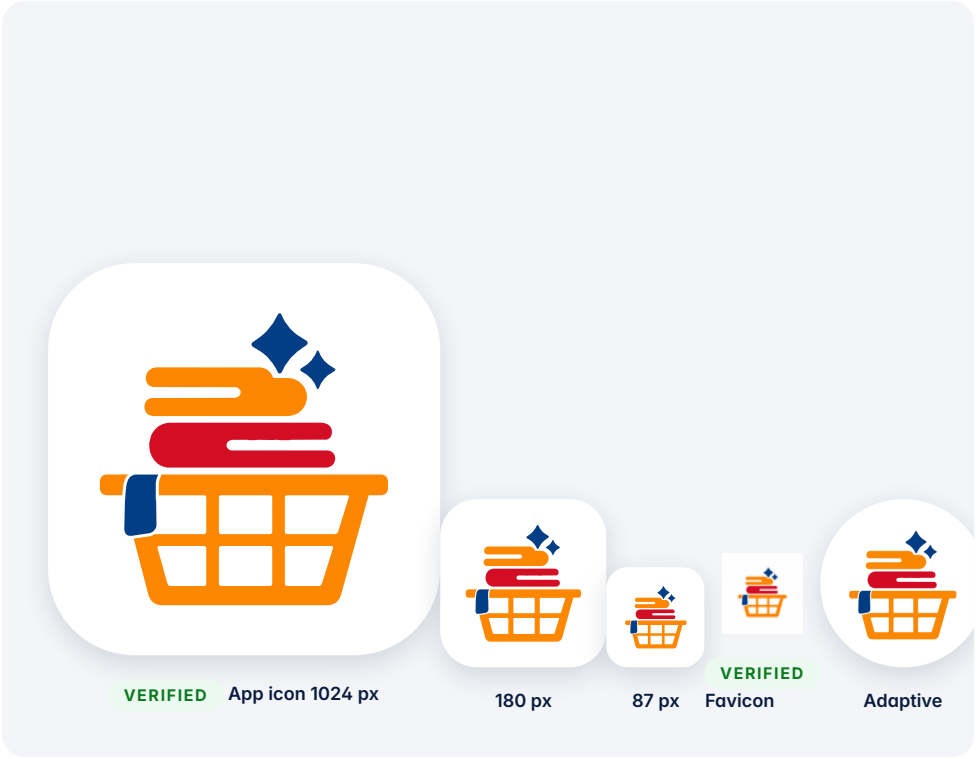

Live placements: mobile app intro lockup, admin sidebar, website navigation.

Placement. The lockup sits top-left in every product: app header, admin sidebar, website nav. On print, place it top-left or centred on the vertical axis; never in the middle of body content.

RULE On Logo Orange, plate colours or busy artwork, place the full-colour mark inside a white rounded tile, or use a single-colour white version.

ICON-ONLY MARK

App icon and favicon

The mark carries the brand wherever the name cannot fit. On device home screens it sits on a **white tile** with the mark at about 70% of the tile width, centred optically (nudge 2% down so the sparkles do not crowd the top).

Tile colour	White #FFFFFF
Mark size	~70% of tile width
Android adaptive	Mark inside the 66% safe zone on a white background layer
Monochrome (Android 13+)	Single-colour version from page “Colour versions”

VERIFIED mobile/assets/icon.png, android-icon-*.png, splash-icon.png and favicon.png now use the mark, made from the product’s own vector. The Expo template icon is gone.

VERIFIED The website and admin favicon is already the mark (favicon.png).

INCORRECT USAGE

Never do this

✕ Stretch or squash

✕ Recolour

✕ Rotate

✕ Add shadows or effects

✕ Remove or rearrange parts

Washing Basket

✕ Retype the wordmark

✕ Place on busy artwork

✕ Gradients or outlines

RULE Do not stretch, recolour, rotate, outline, add effects, separate or re-arrange the parts, retype the wordmark, or place the mark on a background that hides any of its shapes.

03

Colour identity

- Core palette
- Soft brand shades
- Neutrals and surfaces
- Semantic colours
- Proportion and hierarchy
- Contrast and combinations
- Illustration plate colours

PRIMARY PALETTE

Core palette

Three colours come from the logo. Three more run the product. Together they are the brand's signature.

Basket Navy

HEX #013E86
RGB 1 · 62 · 134
CMYK 99 · 54 · 0 · 47

Logo Orange

HEX #FE8701
RGB 254 · 135 · 1
CMYK 0 · 47 · 100 · 0

Cloth Red

HEX #D30D24
RGB 211 · 13 · 36
CMYK 0 · 94 · 83 · 17

Ink

HEX #0A1C3E
RGB 10 · 28 · 62
CMYK 84 · 55 · 0 · 76

Action Orange

HEX #FFA742
RGB 255 · 167 · 66
CMYK 0 · 35 · 74 · 0

Deep Navy

HEX #012A5C
RGB 1 · 42 · 92
CMYK 99 · 54 · 0 · 64

COLOUR	HEX	TOKEN	USAGE
Basket Navy	#013E86	theme brand.navy · sampled from logo	Logo sparkles and towel; links, focus rings, structure, dark offer tickets.
Logo Orange	#FE8701	theme brand.logoOrange · sampled from logo	The basket and orange cloth in the logo. Reserved for the mark.
Cloth Red	#D30D24	theme brand.red · sampled from logo	The red cloth in the logo; the "Cleaned." brand band; seasonal tickets.
Ink	#0A1C3E	theme colors.ink	All primary text, the wordmark, dark buttons and dark stat cards.
Action Orange	#FFA742	theme brand.orange / colors.cta	Primary buttons, wallet card, highlights, selection, active accents.
Deep Navy	#012A5C	theme app.navyDeep · site --navy-deep	Drawer, dark cards, website footer, pressed dark surfaces.

VERIFIED Navy, Logo Orange and Red re-sampled from the master PNG for this book: #013E86, #FE8701, #D30D24 match the theme exactly. CMYK values are mathematical conversions — confirm with a printer's proof before production.

TWO ORANGES

Logo Orange and Action Orange

Logo Orange

#FE8701

The mark only

Action Orange

#FFA742

Product & marketing

Book now

The code keeps two oranges on purpose. **Logo Orange (#FE8701)** is the deep, saturated orange of the basket and cloth. **Action Orange (#FFA742)** is a softer, lighter tone the product uses for buttons, the wallet card and highlights — described in the theme as “modern, soft brand shades, inspired by the logo without being harsh”.

- Logo Orange appears inside the logo and nowhere else in UI.
- Action Orange is the orange of the product, website panels and campaigns.
- Never place the two side by side as flat fills; the near-match looks like an error.

RULE Keep the two oranges in their lanes: Logo Orange for the mark, Action Orange for everything else.

FINDING White text on Action Orange is 1.9:1 and fails WCAG. Use Ink labels (9.3:1), as shown.

SECONDARY PALETTE

Soft brand shades

Five soft shades, each paired with a tint for surfaces. They give the product its friendly, fresh character without diluting the core.

Soft Blue
#54B6F8
RGB 84 · 182 · 248

Blue Tint
#EBF6FE

Soft Orange

#FEF0F2

Soft Gold
#FED843
RGB 254 · 216 · 67

Gold Tint
#FFFBEA

SHADE	HEX	TINT	HEX	USE
Soft Blue	#54B6F8	Blue Tint	#EBF6FE	Towel and sparkle echo; info surfaces, calendar highlights.
Soft Orange	#FFA742	Orange Tint	#FFF4E8	Warmth; CTA, offer and wallet surfaces.
Soft Green	#62D487	Green Tint	#EBF9F0	Fresh and delivered; completed states.
Soft Red	#F87C87	Red Tint	#FEF0F2	Cancelled and error surfaces, gentle alerts.
Soft Gold	#FED843	Gold Tint	#FFFBEA	Warm highlights, rewards, referral moments.

VERIFIED From brandShades in mobile/src/theme/index.ts and the website's --blue … --gold tokens.

NEUTRALS & SURFACES

Neutrals, surfaces and text

White
#FFFFFF
App canvas, cards, sheets

Ivory
#FBF9F4
Website canvas (--ivory)

Paper
#F5F1E8
Website panels (--paper)

Stone
#EAE6DB
Website deep panels (--stone)

Field
#F4F2EB
Resting text-field fill

Subtle
#F4F5F7
Secondary surfaces (app.cream)

Admin Canvas
#F8F9FA
Admin portal background

Line
#E3E6EB
Hairlines and dividers

Line Strong
#CBD5E1
Input borders, table rules

Ink Muted
#667085
Captions, helper text

Ink Soft
#5B6475
Body copy, labels

Ink
#0A1C3E
Headings, primary text

Backgrounds

White is the app canvas (“clean pure white behind everything, no cream”). **Ivory, Paper and Stone** form the warmer environment of the website. The admin portal sits on a cool **#F8F9FA**.

Text

Ink for headings and primary text, **Ink Soft** for body and labels, **Ink Muted** for captions and helper text. Never use pure black for type.

Lines & fields

Line for hairlines, **Line Strong** for input and table borders. Text fields rest on **Field #F4F2EB** and turn white with a navy edge on focus.

VERIFIED All values from mobile/src/theme/index.ts, admin/src/theme/tokens.ts and website/src/styles/base.css.

SEMANTIC COLOURS

Status and feedback

Success

#12AD2B

Delivered #EBF9F0

Warning

#B97800

Payment pending #FFF4D9

Danger

#C8102E

Cancelled #FEF0F2

Information

#013E86

Drop-off ready #EEF3FB

ROLE	COLOUR	TINT	MEANING
Success	#12AD2B	#EBF9F0	Paid, delivered, live. “Parrot green: bright and unmistakably positive.”
Warning	#B97800	#FFF4D9	Pending payment, slot nearly full, needs attention.
Danger	#C8102E	#FEF0F2	Errors, failed payments, cancelled orders, destructive actions.
Information	#013E86	#EEF3FB	Navy doubles as the info colour (navyTint surface).

Semantic colours appear as **small signals** — a dot, a badge, an icon, a thin bar — on their tint. They never fill large areas, and status is never shown by colour alone: pair it with a word (“Delivered”) or an icon.

VERIFIED success, danger, warning and their tints from the theme; admin adds success-ink #0D7A21 for text on green tint.

ACCESSIBILITY

Contrast and combinations

Measured WCAG 2.2 contrast ratios for the combinations the product uses. AA requires 4.5:1 for body text and 3:1 for large text (18 px bold / 24 px regular) and UI parts.

Aa Ink on White 16.8:1 · AAA	Aa Ink on Ivory 16.0:1 · AAA	Aa Ink Soft on White 6.0:1 · AA	Aa Ink Muted on White 5.0:1 · AA	Aa White on Navy 10.3:1 · AAA	Aa White on Deep Navy 14.1:1 · AAA	Aa Ink on Action Orange 8.7:1 · AAA	Aa White on Action Orange 1.9:1 · Fail
Aa White on Logo Orange 2.4:1 · Fail	Aa White on Red 5.5:1 · AA	Aa Ink on Gold 12.1:1 · AAA	Aa White on Success 3.0:1 · Fail	Aa Success ink on tint 5.1:1 · AA	Aa Danger on tint 5.3:1 · AA	Aa Warning on tint 3.3:1 · AA Large	Aa Navy on Navy tint 9.3:1 · AAA

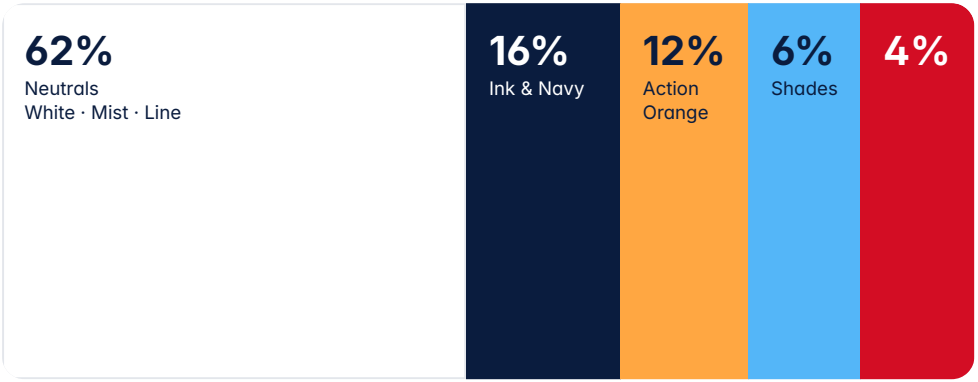

RULE Body text must reach 4.5:1. Use Ink on light surfaces and white on Navy, Deep Navy or Red.

FINDING White on Action Orange (1.9:1) and on Logo Orange (2.4:1) fail for text. Use Ink on oranges and yellows.

VERIFIED Ratios computed for this book from the token HEX values.

HIERARCHY & PROPORTION

VERIFIED
App: white, ink, orange

VERIFIED
Website

VERIFIED
Brand bands

FINDING
Two oranges side by side

✕ Red with green

✕ Navy text on ink

The product reads as **calm first, bright second.** Most of every screen is white. Ink and Navy give structure. Orange marks the one thing to do next. Shades and semantic colours are accents.

- One Action Orange element per view where possible: the primary action.
- Red is a brand colour, not an alert colour, except in the semantic Danger role.
- Plate colours (next page) belong to illustration and campaigns, not UI chrome.
- Dark sections use Deep Navy, never pure black.

PROPOSED Percentages are a guide measured from the live app and website screens, not a mathematical rule.

VERIFIED The orange-red-navy band sequence is the website's brand moment: Collected. Cleaned. Returned.

CAMPAIGN PALETTE

Illustration plate colours

Each step of the care process has its own saturated plate colour. Together they run warm, from red-orange to gold, with one navy plate for contrast.

These colours live **inside the artwork**. They are the backgrounds of the six process plates and the hero cards (Collect #FC4C13, Care #FE6900, Return #FDCE03 in content.ts).

Offer tickets borrow the same family: #FF6F3C, #013E86, #FEC837, #D30D24 and #FEDB7D, each with a darker stub.

VERIFIED Sampled from assets/artwork/1–6.png; values vary slightly across each plate's grain. Not for UI text or buttons.

SUPPORTING FACES & RULES

Slips, numbers and rules

Courier Prime is the voice of the physical laundry slip, the order tag and the receipt. Use it in uppercase for labels and mixed case for line items; never for headlines or UI.

Typography rules

- Sentence case for every heading, button and label. No Title Case, no ALL CAPS except short eyebrow labels and slips.
- Headlines often break into two short lines with a full stop: “Seven services, / one basket.”
- Use the rupee sign ₹ before amounts with no space; tabular figures in lists.
- Left-align text. Centre only short headlines on marketing moments.
- Never set headlines in Courier Prime, or retype the wordmark in any font.
- Never substitute Arial, Helvetica or system fonts in brand materials; install the brand fonts.

RULE Only Inter and Courier Prime may appear in Washing Basket materials, plus the wordmark artwork.

PROPOSED The slip shown is a concept built on the theme’s stated use of Courier Prime; layout to be approved.

Illustration & characters

Four illustration families

The characters

Process plates

Status vignettes

Services and avatars

Rules for new illustration

GRAPHIC LANGUAGE

Four illustration families

Process plates

Full-bleed colour, one scene, one step. Hero, onboarding, brand films.

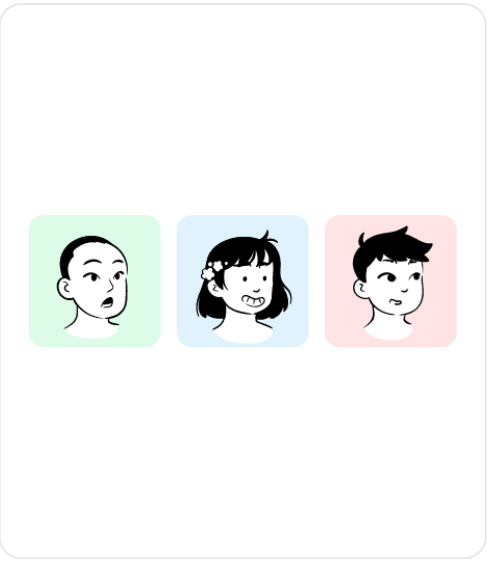

Status vignettes

White ground, soft blob, leaves. Order states and empty states.

Service scenes

Richer props for each service: gloves, bottles, plants.

Avatars

Ink line portraits on pastel tints. Profiles, referrals, reviews.

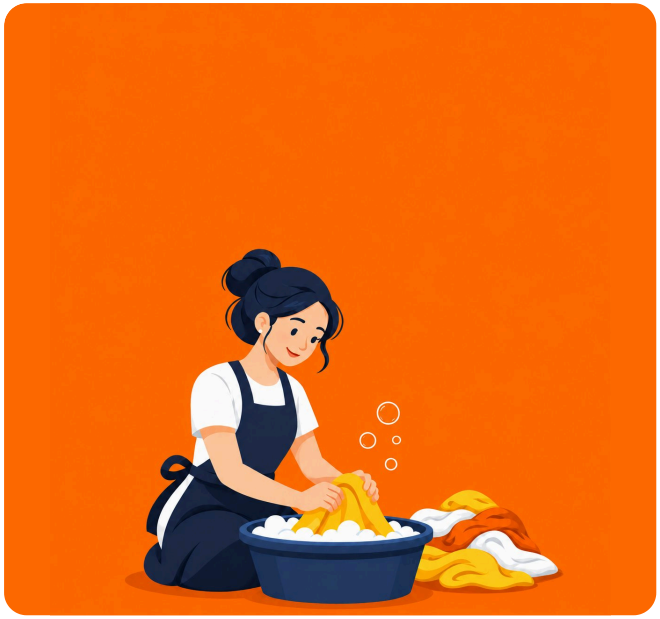

ATTRIBUTE	SHARED RULE ACROSS ALL FAMILIES
Style	Flat vector with soft cel shading; no outlines on bodies, minimal texture, gentle grain on plates
Shape language	Rounded and soft; capsule folds on cloth stacks, round baskets and tubs, no sharp angles
Line	Only avatars use line; elsewhere shapes are defined by colour. Hair and apron details in ink navy
Palette	Navy uniforms, white tees, brand oranges, warm yellows, a little green from plants and lavender-grey leaves
Mood	Calm, competent, kind. People are mid-task and smiling, never posed or exaggerated

VERIFIED Families and attributes catalogued from assets/artwork, assets/illustrations, mobile/assets/services and assets/avatars.

CHARACTERS

The people of Washing Basket

There is no mascot. The brand is carried by three recurring people: two care partners and a customer, drawn consistently across every family.

The care partner (she)

Dark hair in a high bun, navy apron over a white tee. Washes, dries, folds. Focused, gentle smile.

The pickup partner (he)

Short beard, navy cap, navy apron, white tee. Collects, irons and delivers. Open, friendly expression.

The customer

Long dark hair, cream sweater, dark trousers. Hands over and receives. Relieved, happy.

Uniform

Partners always wear a **navy apron over a white crew-neck tee**; the pickup partner adds a navy cap. This is the brand's only fixed costume — it makes staff instantly recognisable.

Expressions & poses

Calm concentration at work; warm smiles at hand-over; one worried look for the "stained shirt" problem state. Poses are mid-action: handing, scrubbing, hanging, pressing, folding, riding.

Proportions

Naturalistic adult proportions, slightly enlarged heads and hands for readability. Faces are simple: dot-and-curve eyes, small nose, clear brows.

PROPOSED Character names are not defined. Leave them unnamed unless the team approves names.

PROCESS PLATES

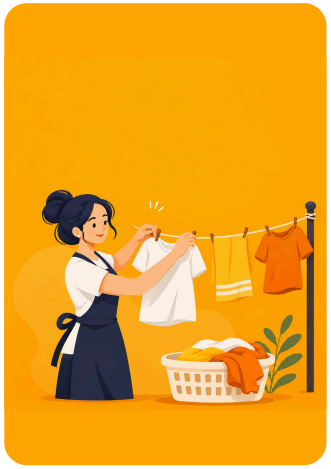

One step, one colour, one scene

01 Collect
Handing over the bag

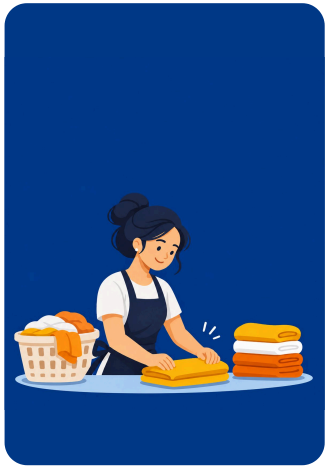

02 Wash
Scrubbing in a tub of suds

03 Dry
Hanging on the line

04 Iron
Pressing a white shirt

05 Pack
Folding into stacks

06 Return
Handing back the stack

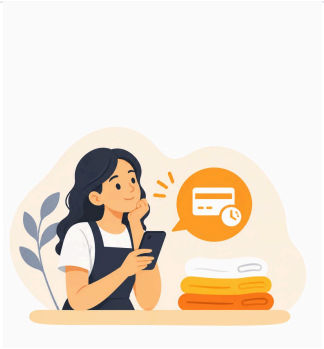

Composition. One or two figures, cropped at the waist or knees, filling the lower two-thirds. A plain saturated background with soft grain; a few props only (tub, basket, line, iron, stack).

Use. Website hero cards and care journey, the mobile sign-in carousel, the admin sign-in film, and the hero loop and brand film generated from these plates.

VERIFIED assets/artwork/1–6.png; also mobile/assets/scenes and website/src/assets/art-*.webp.

STATUS VIGNETTES

Illustrating the order journey

Payment pending

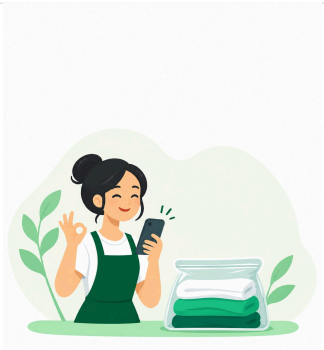

Washing & drying

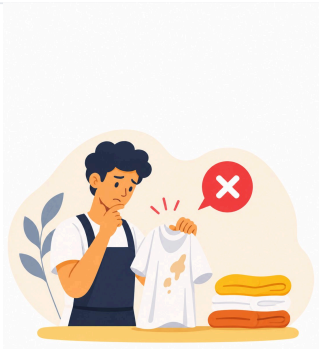

Ironing & packing

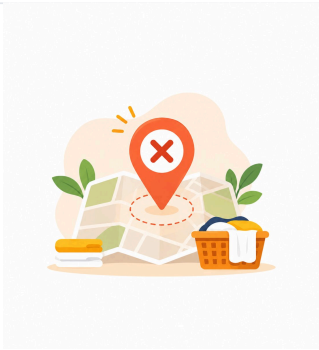

Out for delivery

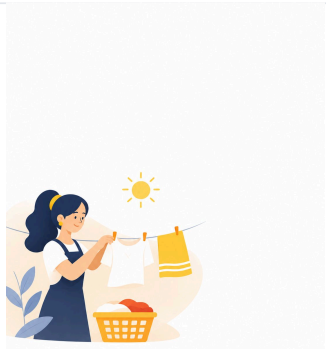

Delivered

Problem / stain

Area unavailable

Empty state

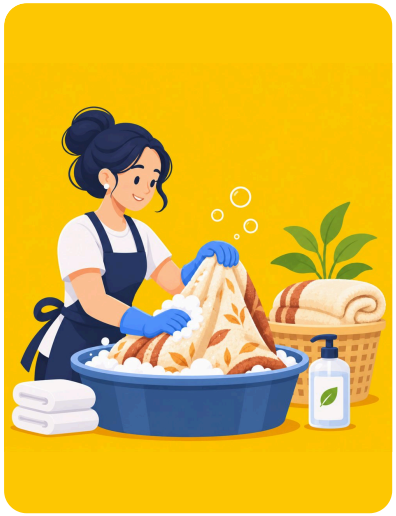

Style. White ground; a soft, pale blob (cream, mint or lilac) behind the scene; lavender-grey leaves framing one side; a single bright accent icon (× badge, card, sun) to tell the state.

Where. Order tracking states, empty and error states, unavailable-area screen (pincode check), loading interstitials and onboarding confirmations.

VERIFIED assets/illustrations and mobile/assets/illustrations, used by the app's order and pincode screens.

SERVICE SCENES & AVATARS

Services and people

Blanket

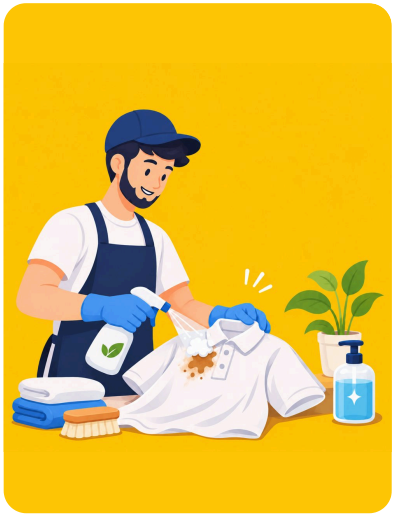

Colour Dye

Dry Clean

Shoes, Bags & Soft Toys

Stain Treatment

Ananya

Rahul

Sneha

Avatars. Bold ink line, no fill on skin, simple hair shapes, set on a pastel tint square (green, blue, red tints from the soft shades). Use for customer profiles, referrals and support threads.

VERIFIED Service scenes add blue nitrile gloves, spray bottles and potted plants — signals of hygiene and care that match the quality promise.

RULES

Making new illustration

Mandatory

- Flat vector with soft shading, no outlines on figures (avatars excepted).
- Partners wear the navy apron over a white tee; keep the three established characters consistent.
- Plates: one step, one saturated plate colour from the campaign palette, one or two figures.
- Vignettes: white ground, pale blob, lavender-grey leaves, one accent icon.
- Represent real campus and Indian household settings; vary skin tones and body types respectfully.
- Every new illustration is reviewed against this page before release.

RULE No 3D renders, stock clip-art, photo-realism, mascots or emoji-style faces in the brand illustration set.

Flexible

- Props and backgrounds can change for seasonal campaigns (monsoon, winter bedding).
- Crops can be tighter for small UI spots, as long as faces stay complete.
- Material textures (cloth, wood, wicker) may be used on the website as stage sets, separate from character art.

Production notes

Master size	≥ 1200 px wide, PNG with transparency for vignettes
Plates	Portrait ≈ 11:12, full-bleed background
Export	WebP for web, PNG for app, layered source kept in assets/
Animation	Cut into layers for hero-loop/brand-film pipelines

PROPOSED These production specs reflect the existing files; adopt as standard.

ICON LANGUAGE

Outline icons, rounded ends

Chevron down

Chevron left

Shield check

Close

14px

16px

20px

22px

24px

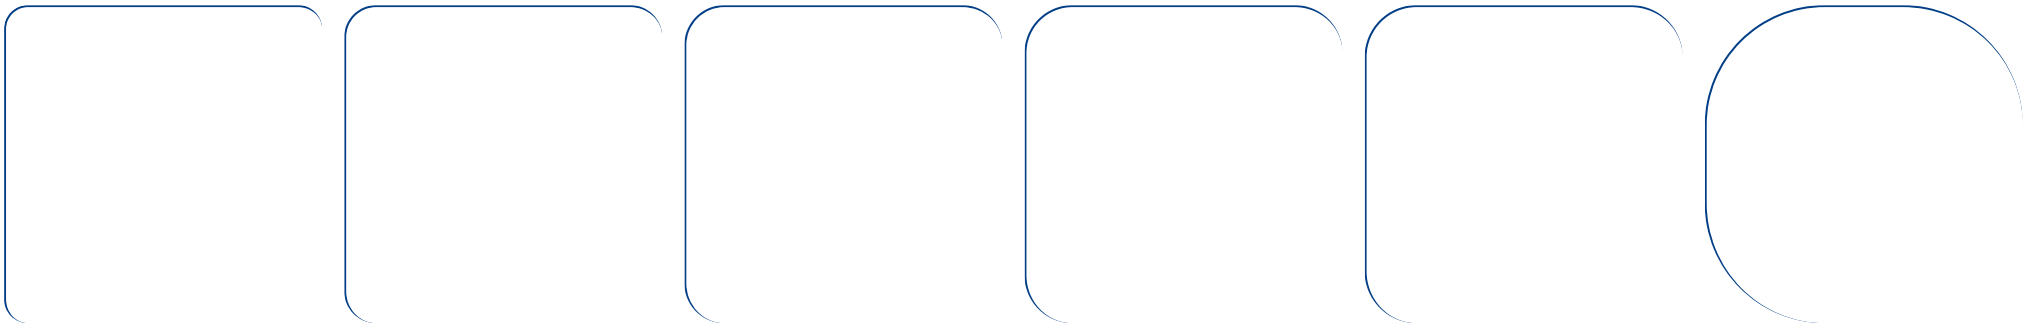

Grid	24 × 24 viewBox, 2 px padding
Stroke	2 px default; 1.8 for small shields; 2.4–2.8 for checks
Ends & joins	Round caps, round joins
Fill	None. Outline only; filled glyphs only inside status dots
Corner radius	Follow the stroke; no hard corners
Sizes	14, 16, 20, 22, 24 px
Colour	Ink Muted #64748B at rest; Ink or Navy active; semantic colour for status

Spacing. Icons sit 8 px from a label. Tap targets are at least 44 × 44 px even when the glyph is 20 px — round icon buttons in the app give that room.

VERIFIED Glyphs reproduced from mobile/src/components/ui/icons.tsx. The style matches Lucide/Feather-like outline icons used across admin.

Field radius	12 px	10 px	Pill (999)
Shadow	One soft level; most surfaces use colour, not shadow	Borders over shadows	Floating navy shadow on device frames

VERIFIED radius, shape and elevation in mobile/src/theme; admin overrides in tokens.ts; website in base.css. The admin is intentionally tighter for dense data.

SIGNATURE ELEMENTS

Graphic motifs

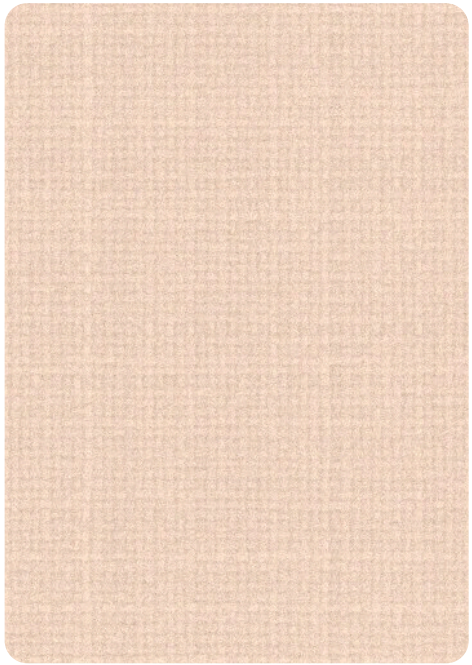

Brand bands

Offer tickets

Sparkle accent

Cloth texture

Brand bands. Three full-width stripes in logo orange, red and navy with one word each. The single strongest graphic device outside the mark.

Offer tickets. Perforated coupons with a darker stub, vertical side label and barcode. Used for every offer in app and web.

Sparkles. The two stars may appear alone as a “fresh / clean” accent next to success messages. Always navy or white, never rotated.

> PROPOSED Sparkles-only use is a proposal; currently they appear only inside the mark.

IMAGE DIRECTION

Illustration first, photography second

VERIFIED The audit found no photography in the brand. Every image is illustration or a rendered material texture — a distinctive choice worth keeping.

Keep illustration as the face of the brand. Add photography only where proof matters — real counters, staff and folded orders — and make it feel like the illustrations brought to life.

Proposed photography direction

Light	Bright, soft daylight; no harsh flash, no dark moody shadows
Background	Plain walls in white or light grey, or a plate colour; uncluttered
Composition	One subject, centred or rule-of-thirds, generous negative space for type
Perspective	Eye level for people; top-down for folded stacks and baskets on white or light grey
People	Real staff in navy aprons and white tees, mid-task, natural smiles; written consent, no stock poses
Grading	Warm whites, true navy, slightly lifted shadows; no filters

PROPOSED All photography guidance is a recommendation for future shoots. The four briefs on the right follow this direction.

IMAGE TO GENERATE

Counter hand-over

A staff member in a navy apron and white tee hands a folded stack of clothes to a student across a campus counter; a QR scanner on the counter. Eye level, faces natural and relaxed.

File photo-counter-handover.jpg
Size 3000 × 2000 px, 3:2

IMAGE TO GENERATE

Folded order, top-down

A freshly folded order (white shirts, a towel, a blanket) stacked inside an orange laundry basket on a white table, shot from directly above with even spacing around the basket.

File photo-folded-order.jpg
Size 3000 × 2000 px, 3:2

IMAGE TO GENERATE

Care in progress

Close-up of hands in blue nitrile gloves treating a small stain on a white shirt with a spray bottle; shallow depth of field, the shirt filling the lower half of the frame.

File photo-care-detail.jpg
Size 3000 × 2000 px, 3:2

IMAGE TO GENERATE

Ready for collection

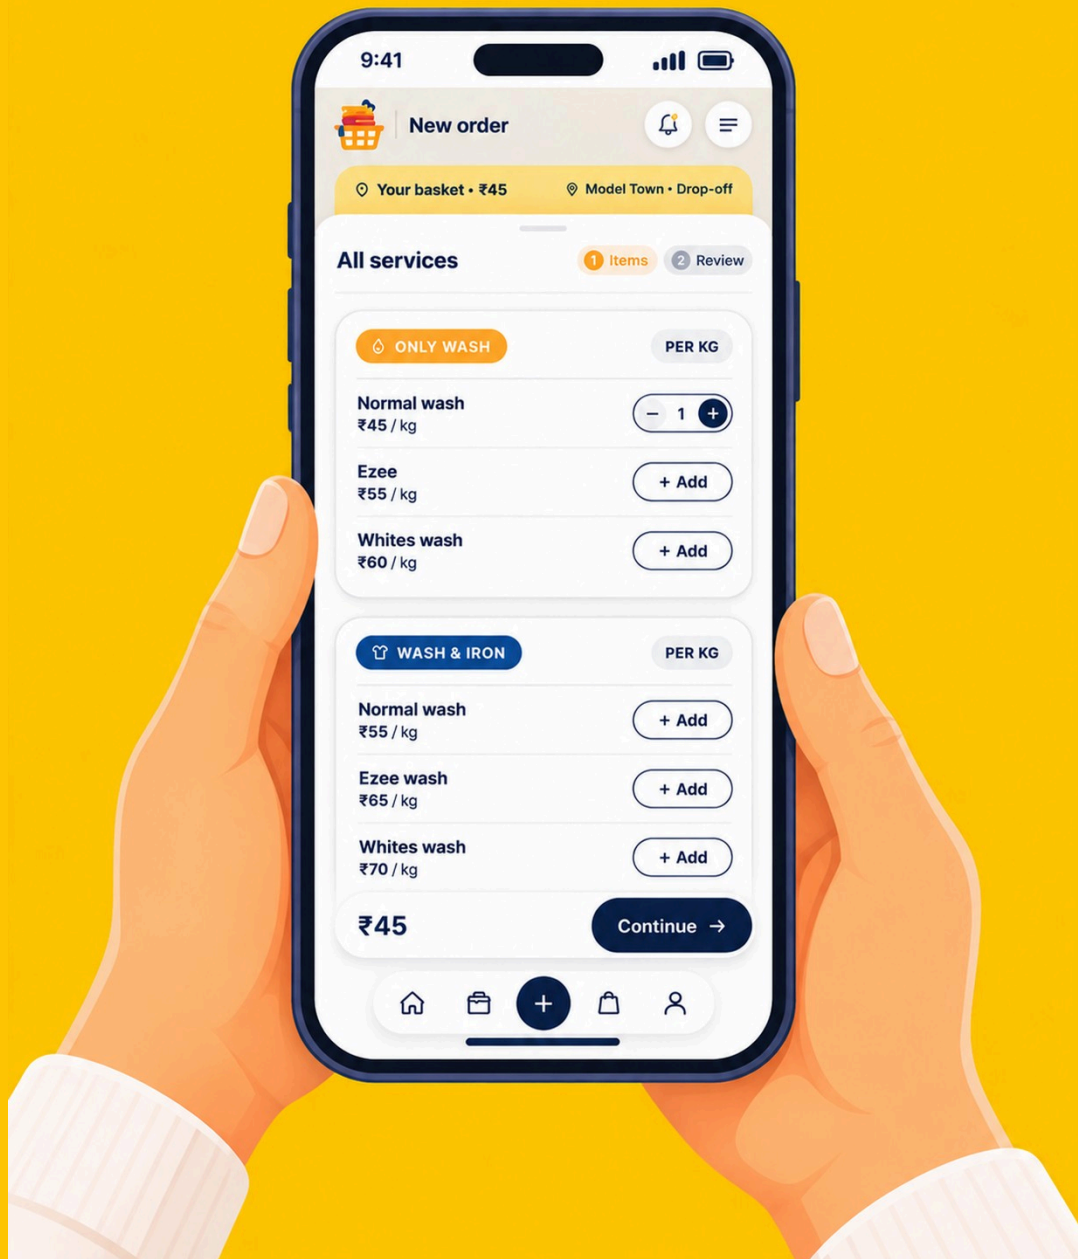

A neat row of packed return orders on clean white shelving, each with a navy hang tag; soft side light, no people.

File photo-ready-shelf.jpg
Size 3000 × 2000 px, 3:2

08

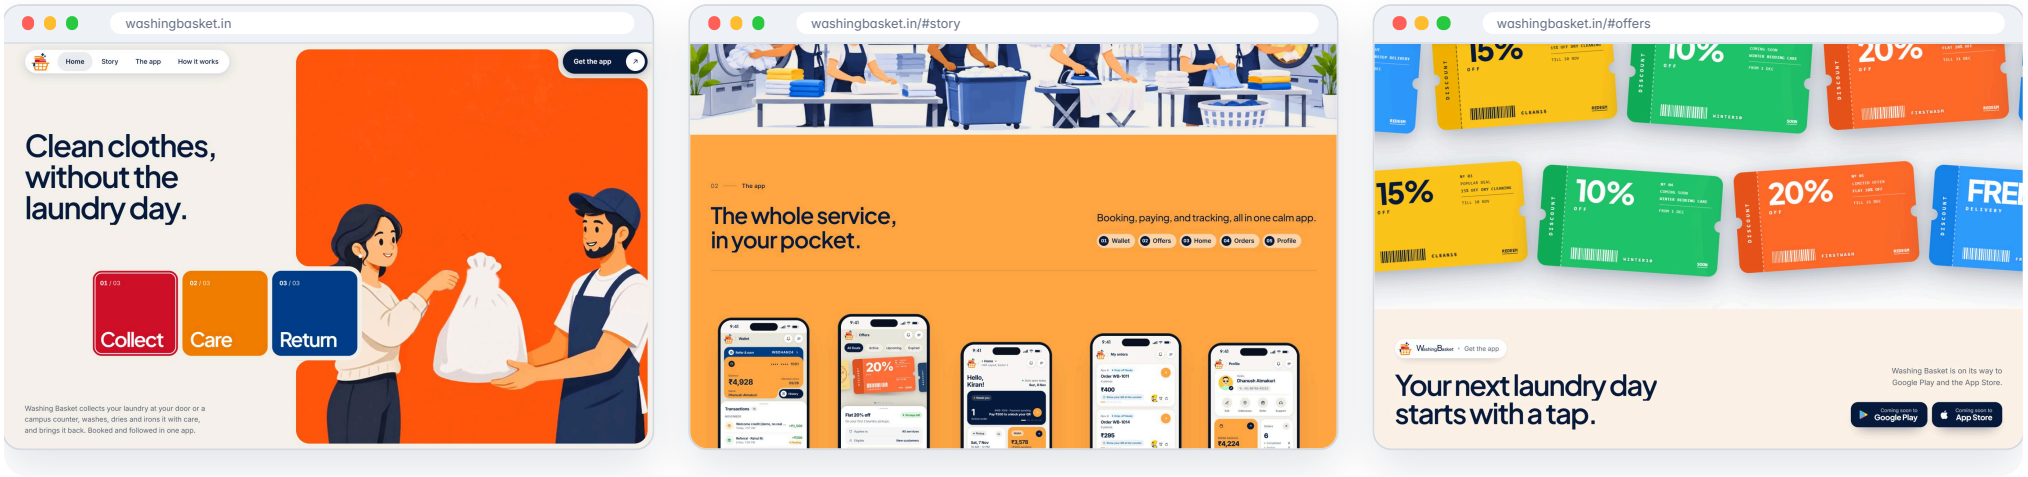

Digital design system

Website	Components
Mobile app	Spacing, grid and radius
Admin portal	Accessibility

WEBSITE

The marketing website

Live website, captured 10 Nov 2026: hero, story and offers, each shown whole.

Navigation. A floating pill nav (Home, Story, The app, How it works) with the lockup left and a dark “Get the app” pill right.

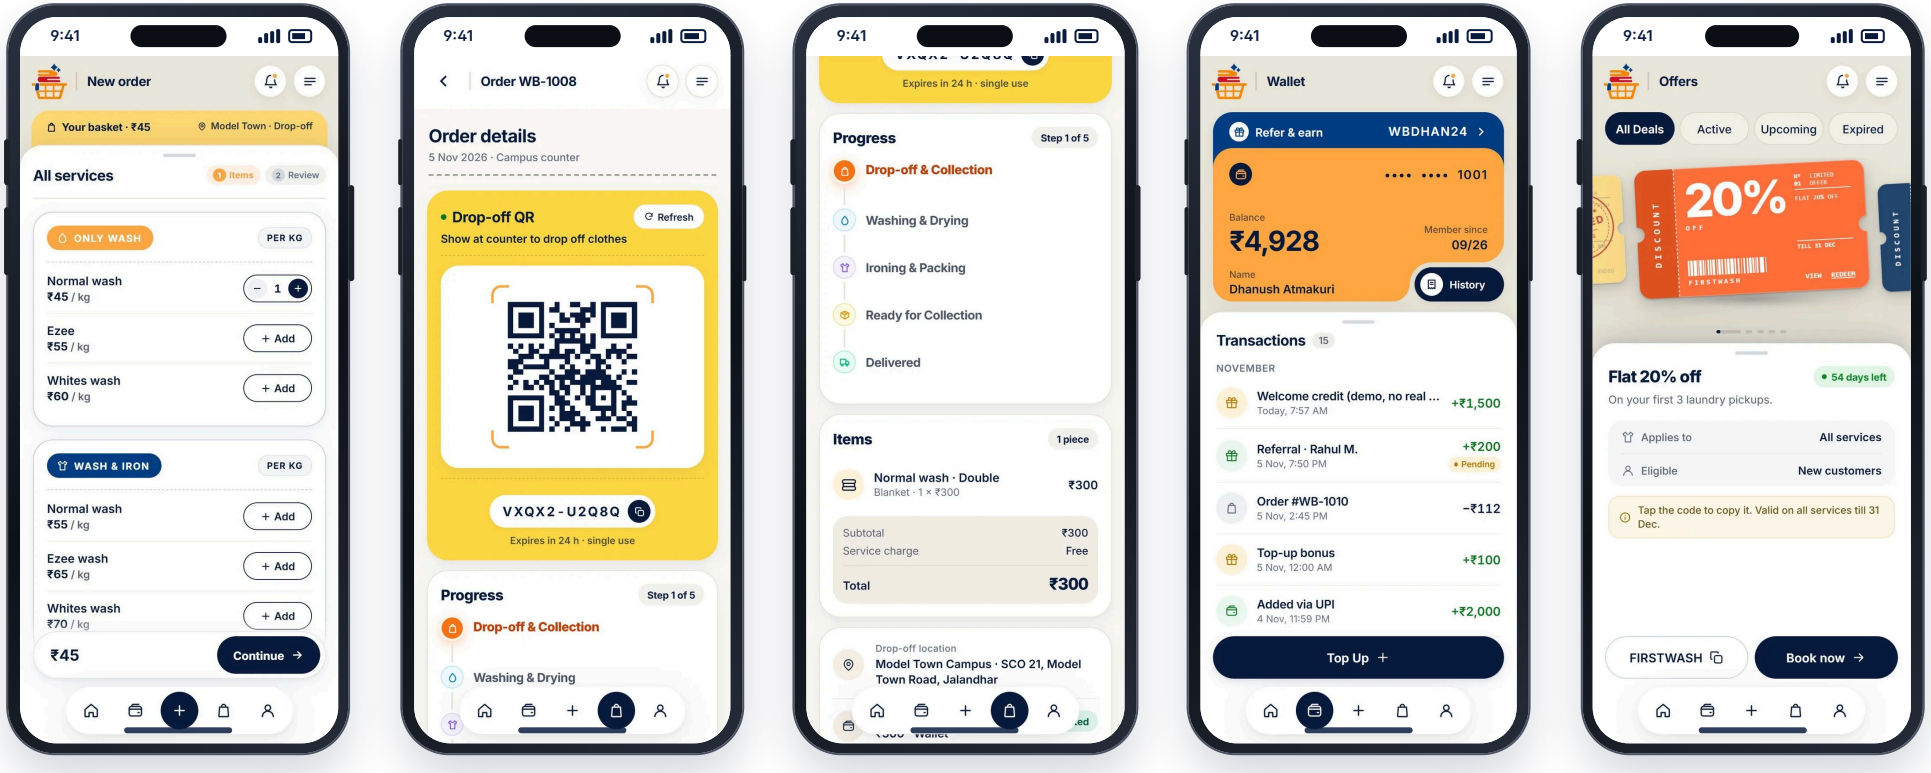

Hero. Two-column: three-line headline left, an illustration card stack (Collect, Care, Return) right on the ivory canvas.

Sections. Full-bleed panels alternate Ivory, Action Orange and texture stages; GSAP scroll scenes; Deep Navy footer.

Responsive. Fluid gutters clamp(20px, 4vw, 64px), 1360 px max width; layouts switch at 900 px.

MOBILE APPLICATION

The customer app

New order, order details with the drop-off QR, progress, wallet and offers, captured from the app.

Bottom navigation. Five round icon buttons on a floating bar; the active item fills Ink. A centred “+” books a new order.

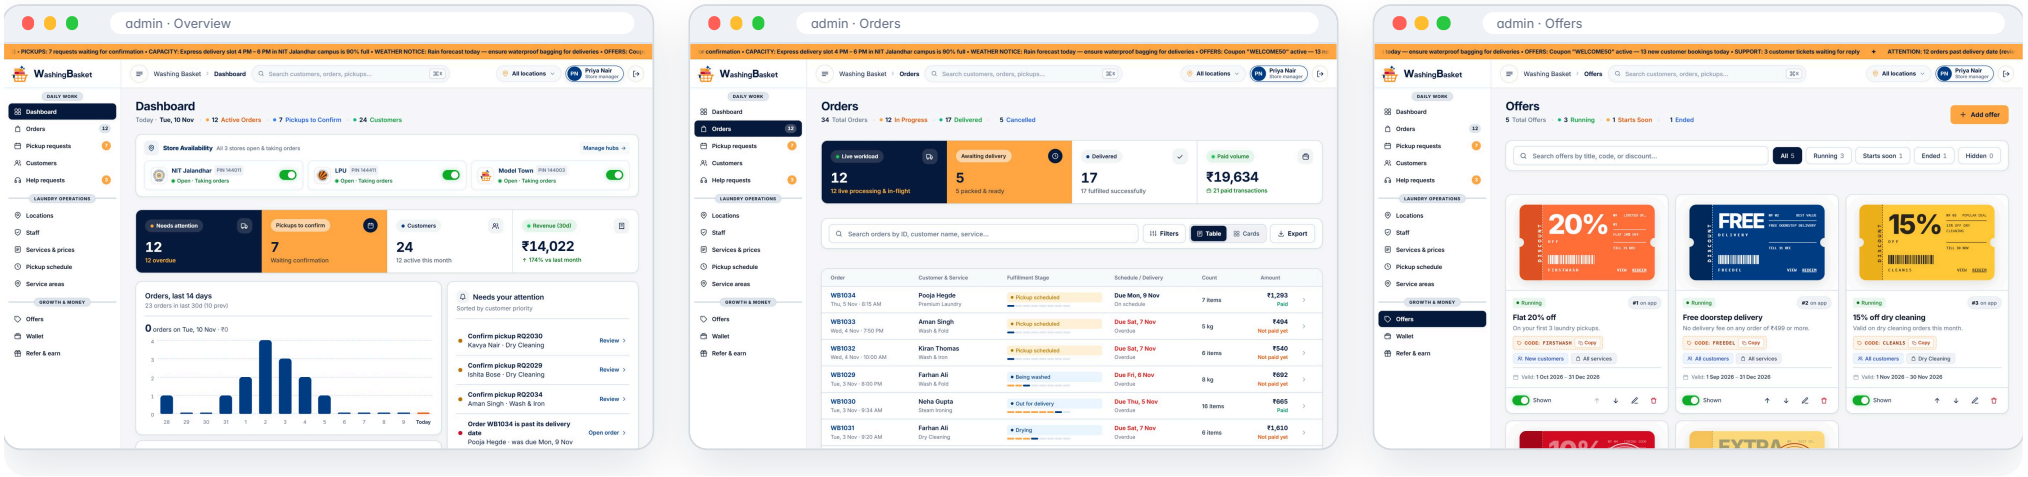

Cards. White, 26 px radius, soft elevation; dark Ink stat cards and Action Orange wallet card for emphasis.

Sheets & modals. Rising bottom sheets, 24 px top radius, spring motion; sign-in sits on a sheet over the plate carousel.

States. Status pills with dot, live progress timeline, vignettes for empty and error states.

ADMIN PORTAL

The operations portal

Admin portal: overview dashboard, orders and offers, each shown whole.

Same brand, denser. Identical colour and type tokens, imported straight from the app theme. Radii drop to 14/12/10 px; tables replace cards.

Stat cards. The signature row: an Ink card, an Action Orange card and white cards, each with an icon button and one big number.

Layout. 260 px white sidebar (72 px collapsed) with grouped sections, a top bar with search and location picker, and an orange announcement ticker.

COMPONENT	SPECIFICATION
Primary button	Action Orange, 52 px tall, 12 px radius, Inter SemiBold 15 / +0.2 px; pressed #E58E2E and scale 0.98; success state turns green with a check
Dark button	Ink fill, white label; for flow steps (Continue, Sign in) and the app's floating actions
Text field	52 px, Field #F4F2EB at rest, 12 px radius; focus = white fill + navy edge; errors in Danger with an icon and words
Badge	Pill, coloured dot + label in the semantic colour on its tint

SPACING & GRID

Spacing, grid and layout

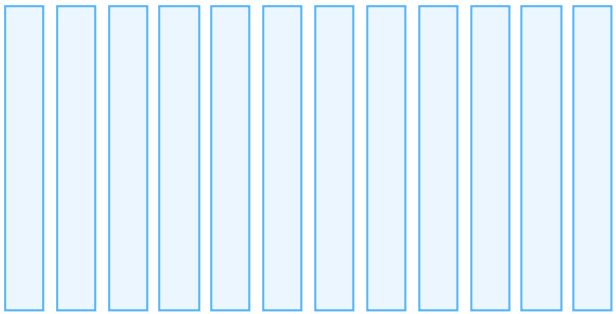

Mobile

16–20 px margins · 4 col

Desktop

12 col · 1360 max · fluid gutter

Base unit	4 px; tokens xs 4 → xxxl 32
Control height	52 px for fields and buttons
Mobile margins	16–20 px; cards stack with 12–16 px gaps
Website	Gutter clamp(20px, 4vw, 64px), max width 1360 px, break at 900 px
Admin	Sidebar 260 / 72 px; content grid of stat cards and tables

Layout principles

- Calm first: one primary action per screen, lots of white.
- Group with surfaces and space before lines and shadows.
- Hierarchy by size and weight, not by colour.
- Content max width ~68 characters for reading.

VERIFIED space tokens and CONTROL_HEIGHT in mobile/src/theme; website --gutter and --max in base.css; admin --sidebar-w in layout.css. Column grids are proposed formalisations.

ACCESSIBILITY

Accessible by default

Already in the product

- Visible 2 px navy focus rings with 3 px offset on web and admin.
- Skip link on the website; reduced-motion support that removes smooth scrolling and scene motion.
- Accessibility labels on the logo and wordmark (“WashingBasket”).
- Errors written in words with an icon, never colour alone.
- Tabular figures for amounts.

VERIFIED From base.css, motion.ts, Wordmark.tsx and TextField components.

Rules for new work

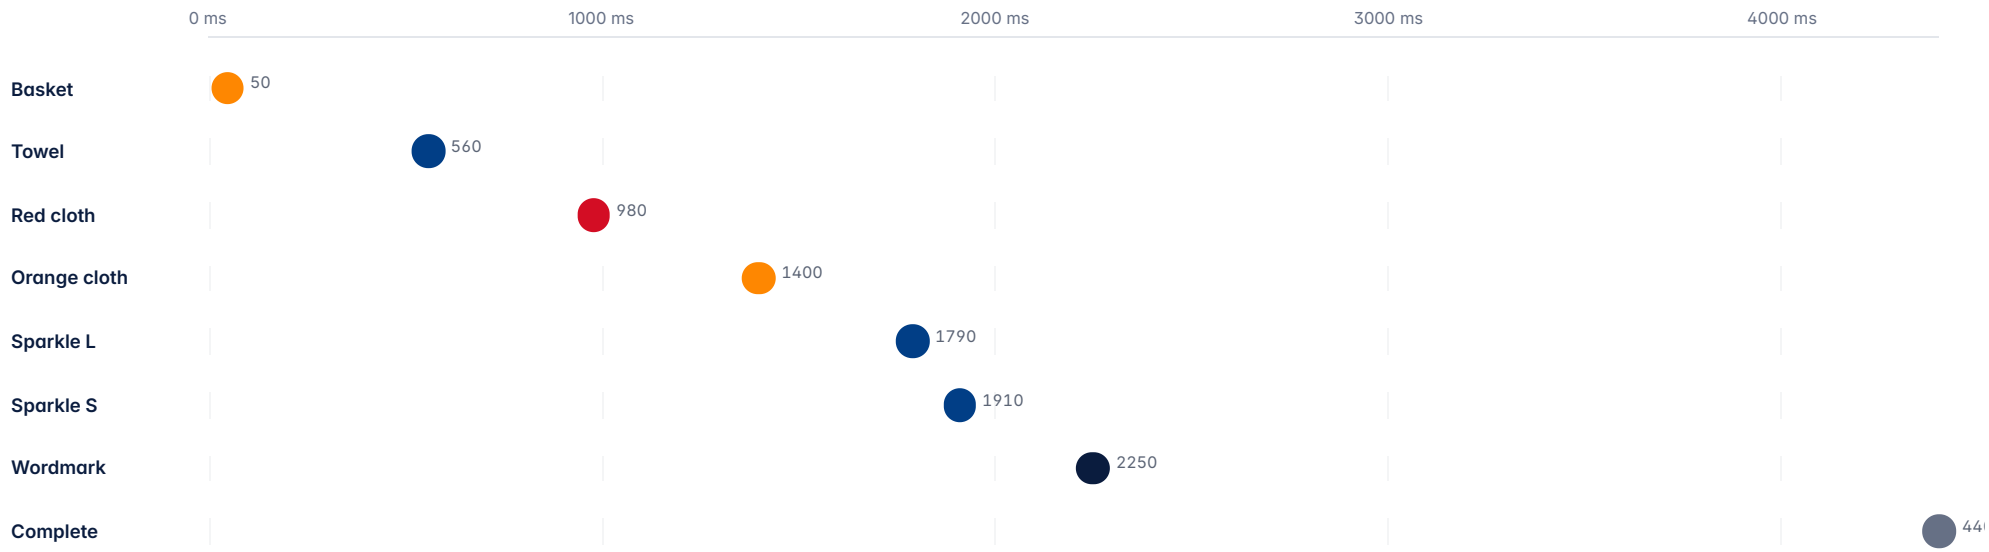

- Text contrast ≥ 4.5:1; large text and UI parts ≥ 3:1 (see Colour · Contrast).
- Ink, not white, on Action Orange, Gold and yellow plates.
- Tap targets ≥ 44 × 44 px.
- Minimum body size 14 px in app, 16 px on web.
- Every illustration gets alt text describing the action (“A partner hands a stack of folded clothes back to a customer”).
- Honour prefers-reduced-motion everywhere.

RULE Accessibility is not optional. A design that fails contrast or target size is not on-brand.

LOGO ANIMATION

The basket fills itself

The brand moves the way laundry does: things drop in with a little weight, settle, and rest. Physical, quick, never bouncy for its own sake.

Sequence. The basket slides in from the right, leaning with momentum, and sits upright. The towel flops over the rim. The red cloth drops in, the basket gives; the orange cloth lands on top, the basket gives again. Two sparkles pop. The mark glides left and the wordmark rises letter by letter (38 ms stagger, 520 ms each).

Where. App intro splash, admin sign-in intro, website opening. A shorter 1.5 s loop (clothes dropping) is the brand loader. Tap anywhere to skip; every element rests at its final position, so “no animation” shows the finished logo.

VERIFIED Times from INTRO_TIMELINE in AnimatedLogo.tsx; ported to admin brand.css.

DURATIONS & EASING

Timing, curves and interactions

TOKEN	VALUE	USE
Ease out (signature)	cubic-bezier(0.16, 1, 0.3, 1)	Entrances, glides, page scenes
Ease decel	cubic-bezier(0.22, 1, 0.36, 1)	Slides, basket entry
Ease in-out	cubic-bezier(0.45, 0, 0.55, 1)	Fades, shadows
GSAP default	power3.out	Website scroll scenes
Sheet spring	damping 22 · stiffness 240 · mass 0.8	Bottom sheets
Pop spring	damping 13 · stiffness 190	Reveal / success pops
Press	90 ms down · spring 300 ms back, scale 0.98	Buttons
Smooth scroll	Lenis, 1.15 s, expo out	Website

Micro (press, hover)	90–150 ms
Small (toggle, chip)	200–300 ms
Medium (sheet, card)	320–500 ms
Large (intro, scene)	600–1000 ms

VERIFIED Curves and springs from mobile/src (Easing.bezier, withSpring), website motion.ts and base.css --ease.

What motion should communicate

Care and weight. Objects have mass: clothes fall with gravity (~285 ms), baskets give when they land. **Progress.** The order timeline fills step by step. **Reassurance.** Success turns the button green with a check; payments get a short celebration.

Do

- Ease out on entrances; settle with one small overshoot at most.
- Stagger lists by 30–60 ms.
- Animate transform and opacity only.
- Offer skip on anything over 1 s; respect reduced motion.

Don't

- Elastic, wobbly, spinning or flipping logos.
- Linear movement on UI (except progress and timelines).
- Motion that blocks input or loops endlessly in UI.
- Parallax on text.

RULE The logo only ever animates with its official fill-the-basket sequence or the loader; never spin, flip or morph it.

10

Brand applications

Laundry bag

Return tote

PRODUCT RENDERS

Laundry bag and return tote

Laundry bag · cotton canvas, navy base and drawstring

Return tote · textured Action Orange paper, rope handles

Laundry bag. Natural cotton canvas (240 GSM) with a Deep Navy base panel and navy drawstring with knotted ends. Full-colour lockup on the front, a small navy woven label with the mark on the side seam, reinforced stitching at the base.

Return tote. Textured paper in Action Orange with braided orange rope handles set in metal eyelets and a reinforced, gusseted base. The lockup prints in white, centred on the front; the back stays plain.

PROPOSED

Renders made for this book. Confirm fabric weight, paper stock, ink and suppliers before ordering.

TONE OF VOICE

Calm, clear, kind

Washing Basket sounds like a **capable friend who has it handled**. It speaks in short sentences, plain verbs and real facts. It is warm without being cute, and confident without boasting.

Writing principles

Short and rhythmic	Full stops do the work. “Collected. Cleaned. Returned.”
Concrete	Say the price, the slot, the step. “48 hours.” “₹45/kg.” “Two-hour slot.”
True	No invented numbers, awards, testimonials or history. Ever.
Customer first	“Your basket”, “your door”, “your week”. Talk about their day, not our machines.
Calm	No exclamation marks in UI. No urgency tricks.

VERIFIED Principles are distilled from live copy in website/src/content.ts and the app; “no invented history, numbers, awards, testimonials” is a rule written in that file.

Vocabulary

SAY	AVOID
Basket, hand over, collect, return	Consignment, drop shipment
Partner (for staff)	Worker, boy, guy
Care, fresh, folded, pressed	Hygienic-certified, germ-killing (unless proven)
Counter, doorstep, slot	Facility, logistics window
Washing Basket (two words)	WashingBasket, WB, Washing-Basket in prose
From ₹45/kg	Cheapest, best price guaranteed
Track your laundry	Monitor your consignment

Preferred phrases

- Clean clothes, without the laundry day.
- Hand over your basket.
- Counted in front of you.
- Every stage, live in the app.
- Book your pickup and leave the rest to us.

MESSAGING BY MOMENT

How we sound, moment to moment

MOMENT	TONE	EXAMPLE (LIVE COPY)
Welcome / sign-in	Simple, welcoming	“Welcome to Washing Basket. Enter your mobile number to continue.”
Home	Personal, glanceable	“Hello, Kiran!” · “Fresh clothes, at your door.”
Booking	Clear, step-by-step	“Pick a date, a time slot and your address.”
Tracking	Reassuring, factual	“Washing & Drying” · “Out for delivery” · “Every stage, live in the app.”
Help text	Helpful, honest	“We’ll text you a 6-digit code to confirm it’s you.”
Errors	Calm, says how to fix	“Enter your email and password.”
Offers	Light, specific	“Flat 20% off on your first 3 laundry pickups.”
Admin	Efficient, operational	“Every pickup, wash and delivery, in one place.”

Headlines

- Clean clothes, without the laundry day.
- Seven services, one basket.
- Five careful steps, every single order.
- The whole service, in your pocket.
- Your next laundry day starts with a tap.

CTAs

Verb first, two or three words, sentence case: **Book now · Continue · Track order · Top up · Get the app · See prices**. Never “Click here” or “Submit”.

Social

One idea per post, a short headline, a real fact (service, price, slot, campus). Emoji sparingly — at most one, never in place of words. Reply to customers by name, in the same calm voice.

> PROPOSED Social guidance is new; no social channels are recorded in the codebase.

CHECKLISTS

Before anything ships

Logo

- [ ] Supplied artwork, not redrawn
- [ ] Correct version for the background
- [ ] Clear space x on all sides
- [ ] Above minimum size
- [ ] Not stretched, rotated or recoloured
- [ ] “Washing Basket” two words in text

Colour

- [ ] Only palette colours from this book
- [ ] Logo Orange only in the mark
- [ ] Text contrast ≥ 4.5:1
- [ ] Ink, not white, on orange/yellow
- [ ] Status colour paired with words

Typography

- [ ] Inter / Courier Prime only
- [ ] Sentence case
- [ ] Wordmark from artwork, never typed
- [ ] Tabular figures for amounts
- [ ] No font substitution

Illustration & imagery

- [ ] From an existing family
- [ ] Navy apron, white tee on partners
- [ ] Correct plate colour per step
- [ ] Alt text written
- [ ] No stock photos or 3D clip-art

Digital UI

- [ ] Tokens from mobile/src/theme

GOVERNANCE

Keeping it consistent

Mandatory rules vs creative freedom

MANDATORY	FLEXIBLE
Logo artwork, versions, clear space	Layout and composition of each piece
Core palette and contrast	Which shades accent a campaign
Three typefaces	Headline wording and line breaks
Partner uniform in illustration	Props, scenes and seasonal themes
Truthful copy, real prices	Tone shading by channel
Accessibility minimums	Motion choreography inside the rules

Approval workflow

- 1 · Brief names the audience, message and channel.
- 2 · Creator self-checks against the checklists.
- 3 · Brand owner reviews logo, colour, type and claims.
- 4 · Product owner verifies prices, offers and app facts.
- 5 · Approved files are stored with version and date.

PROPOSED Workflow and owners to be confirmed by the team.

Asset organisation

FOLDER	CONTENTS
assets/brand/logo/	SVG, EPS, PDF, PNG per version (to create)
assets/brand/app-icon/	iOS and Android icon sets (to create)
assets/brand/fonts/	Licences and TTFs for the three faces
assets/artwork/	Process plates (existing)
assets/illustrations/	Status vignettes (existing)
assets/avatars/	Customer avatars (existing)
assets/brand/guidelines/	This book, .docx and .pdf

Consistency audit · every quarter

- Diff theme tokens across mobile, admin and website.
- Screenshot every key screen; check against this book.
- Review new illustrations and marketing pieces.
- Re-run contrast checks on any new colour pair.
- Log findings and update this book's version.

APPENDIX

Token and asset reference

Colour tokens (CSS)

```
--navy: #013E86;       --navy-deep: #012A5C;
--logo-orange: #FE8701; --red: #D30D24;
--orange: #FFA742;     --orange-pressed: #E58E2E;
--ink: #0A1C3E;        --ink-soft: #5B6475;
--ink-muted: #667085;  --line: #E3E6EB;
--ivory: #FBF9F4;      --paper: #F5F1E8;
--field: #F4F2EB;      --subtle: #F4F5F7;
--success: #12AD2B;    --warning: #B97800;
--danger: #C8102E;     --navy-tint: #EEF3FB;
--blue: #54B6F8;       --green: #62D487;
--gold: #FED843;       --soft-red: #F87C87;
```

Type & shape tokens

```
--display: 'Inter';
--text: 'Inter';  --mono: 'Courier Prime';
--control-h: 52px; --r-button: 12px;
--r-field: 12px;   --r-sheet: 24px;
--r-card: 26px;    --r-tile: 20px;
--space: 4 8 12 16 20 24 32;
--ease: cubic-bezier(0.16, 1, 0.3, 1);
```

Source of truth

mobile/src/theme/index.ts is the single source. The admin portal imports it directly (admin/src/theme/tokens.ts) and the website mirrors it in base.css. Change a colour there first.

Brand asset index

ASSET	PATH
Master logo PNG	assets/brand/WashingBasket-logo.png
Logo vector trace	website/src/logoGeometry.ts
Favicon	admin/public/favicon.png
Process plates	assets/artwork/1.png – 6.png
Status vignettes	assets/illustrations/*.png
Service scenes	mobile/assets/services/*.png
Avatars	assets/avatars/*.png
Hero loop / films	website/public/media · hero-loop · brand-film
Fonts	@expo-google-fonts/* · @fontsource/*

Font licences. Inter and Courier Prime are licensed under the SIL Open Font License 1.1 and are free for commercial use.

WashingBasket

Collected. Cleaned. Returned.
